

THERMAL SYSTEMS

# WEBINAR

## Vapor Phase Soldering

March 21, 2024 at 9.00 a.m. and 4.00 p.m.

Do you process large and heavy boards for which reflow/convection soldering is out of the question? Or do you want a system that you can reliably carry out vacuum processes with at any time? Then choose a **Condenso series system** that can be customised to your manufacturing environment!

The Condenso series system versions can be integrated into a wide range of manufacturing environments. Whether it's a batch operation, semi automatic or inline solutions, Rehm offers the highest degree of process reliability for all areas.

March 21, 2024 at 9:00 a.m. CET (for Asia, Europe, ROW)  
March 21, 2024 at 4:00 p.m. CET (for Americas, Europe)

Registration:  
[s.bartosch@rehm-group.com](mailto:s.bartosch@rehm-group.com)

Duration of the webinar: 60 min

### Main topics of the webinar

- Vapor phase vs. Convection
- Why Vapor phase?
- Which are the Applications?
- Rehm vapor phase technology
- Advantages in working with Rehm products
- From batch to max. output. Always the right solution.
